

REMARKS

By this amendment, claims 27-65 are pending, in which claims 34, 46 and 59 are currently amended. Claims 1-26 were previously canceled. No claim is newly presented.

The Office Action mailed October 5, 2007 rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 27-31 of commonly owned *Culver* (U.S. Patent No. 6,690,663 B1). Claims 34-40, 46-50, and 59-65 were rejected under 35 U.S.C. §112, first paragraph, as failing to comply with the written description requirement. Claims 32-33 were objected to as being dependent upon a rejected base claim (i.e., claim 27), but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Applicant appreciates the indication that claim 41-45 and 51-58 are allowed.

In view of the claim amendment, the §112, first paragraph rejection to claims 34-40, 46-50, and 59-65 is overcome. Specifically, claims 34, 46, and 59 have been amended to remove the language “web” from “web server”; this change is fully supported in the Specification (see e.g., FIG. 1 server 108 and accompanying text).

In response to the obviousness-type double patenting rejection, a terminal disclaimer in compliance with 37 C.F.R. §1.321 is submitted herewith.

Therefore, the present application, as amended, overcomes the objections and rejections of record and is in condition for allowance. Favorable consideration is respectfully requested. If any unresolved issues remain, it is respectfully requested that the Examiner telephone the undersigned attorney at (703) 519-9952 so that such issues may be resolved as expeditiously as possible.

Respectfully Submitted,
